Portfolio: portfolium.com/tobycurtis

Objective: Determined Developer with a passion for emerging technology

Languages	Frameworks	Tools/Tech/Libraries	
JavaScript (Intermediate)	Angular.JS (Advanced)	Heroku (Intermediate)	Azure Cloud Services (Intermediate)
HTML/CSS (Advanced)	Entity Framework (Intermediate)	REST APIs (Advanced)	Visual Studio (Advanced)
C# (Intermediate)	ASP Web API (Intermediate)	Version Control (Git) (Advanced)	OOP (Advanced)
SQL (Intermediate)	.Net Framework (Intermediate)	SCRUM (Intermediate)	Bower (Intermediate)

- **Drive to Learn:** Desire to learn new technologies. Learning new technologies is important to me so I can be better equipped to choose between them.
- **Capable Communicator and Listener:** I have excellent communication skills and have experience with tools such as Trello, GitHub, Slack, and SCRUM.
- **Experience in Software Architecture:** I have developed full stack applications using Microsoft Azure, Microsoft SQL, Entity Framework, Micro-services and ASP.NET MVC
- **API Technology:** Talented in consumption of REST APIs such as the OMDb API, Open Weather Map's API, and various Google APIs among others. Skilled at writing my own REST APIs.

Projects

LooCator – Yelp for Public Restrooms

HTML, CSS, JavaScript, jQuery, Angular.JS, C#, Entity Framework, SQL, Google Maps API

- Developed application that allows users to find nearby bathrooms.
- Users are also able to add reviews to current bathrooms, or add a new bathroom if it doesn't exist in the database.

HostIPass

HTML, CSS, JavaScript, Angular.JS, C#, Entity Framework, SQL

- Application resembling Airbnb that allows travelers to connect with hostel owners and book stays.

Professional References
